## **2004 CLIMATE PROTECTION AWARDS**

### ***Introduction***

The Climate Protection Partnerships Division of the U.S. Environmental Protection Agency (EPA) invites nominations for the 2004 Climate Protection Awards. This award program was established in 1998 to recognize exceptional leadership, outstanding innovation, personal dedication, and technical achievements in protecting the climate.

### ***Background & Organization***

The Climate Protection Awards began in 1998 and have been presented to 81 corporate, military, association and individual winners from 14 countries (Australia, Brazil, Canada, Chile, China, France, India, Italy, Japan, Netherlands, South Korea, Sweden, the United Kingdom, and the United States). These winners contribute to climate protection in a wide variety of fields. See Figure 1.

The U.S. EPA seeks nominations for outstanding leadership, innovation, personal dedication and technical achievements in reducing greenhouse gas emissions and protecting the Earth's climate. Accomplishments can include stewardship, product introduction, pollution prevention, policy innovation, and engineering innovation.

### ***Awards Panel and Procedure***

Dr. Stephen O. Andersen, U.S. EPA, will assemble and chair an international panel of judges including representatives of previous Climate Protection Award winners. With the advice of this panel, EPA will make the final selection. The judges represent government, industry, and non-governmental organizations.

### ***Instructions:***

All applications must include an official cover letter from the nominator, a completed application form (Attachment 1), and a one page summary. Electronic forms are preferred. Since the judges are unable to visit facilities, applicants are encouraged to submit supporting materials such as photographs, technical descriptions, news clippings, and press releases. Neither the application nor the supporting materials will be returned.

**Applications must be mailed, faxed or e-mailed no later than October 1, 2003.**

## **U.S. EPA CLIMATE PROTECTION AWARDS**

### **Eligibility**

- Candidates may be from anywhere in the world
- Individuals and organizations may work for the public or private sector
- Candidates may be either self-nominated or nominated by a third party

### **Application Process**

- Candidate individuals, groups, or organizations from the public or private sector should submit a standard application form, a cover letter from their nominator, a one page summary of their accomplishment, and supporting materials

### **Selection Criteria**

- Winners selected on the basis of originality and public purpose; persuasive, moral or organizational leadership; global perspective and implication; and actual (or equivalent) reduction in greenhouse gas emissions

### **Judging Process**

- Applications will be screened by a panel of judges selected for expertise and mindful of geographical balance. Past award winners also serve on the judging panel.
- EPA makes the final selection of award winners

### **Presentation of Awards**

- Winners of the 2004 Climate Protection Award will be announced during the 2004 Earth Technologies Forum in Washington, D.C., April 13-15, 2004.
- Award recipients will be honored at a dinner ceremony on April 13, 2004, where the EPA Stratospheric Ozone Protection Awards will also be presented

### **Recipient Benefits**

- Honor of winning prestigious international environmental award
- Recipients may publicize receipt of the award
- Name recognition
